OFFICE OF THE GOVERNOR

STATE OF MONTANA

JUDY MARTZ
GOVERNOR

STATE CAPITOL
PO BOX 200801
HELENA, MONTANA 59620-0801

Dear Fellow State Employees:

Once again we begin a new year and have new opportunities to serve the citizens of the State of Montana.

This past year we were confronted with unimagined challenges, and once again each and every Montanan has shown the true spirit of the Treasure State by stepping forward to volunteer to help their friends and neighbors in their time of need. Your dedicated support this past year has launched us into 2002 with a renewed sense of pride in our work and an unceasing commitment to public safety. I take this opportunity to thank every state employee for a job well done.

I pray, also, for this great nation of ours, a nation that is free, a nation that is strong, a nation that is united. The freedom we cherish as Montanans is dependent upon our dedication, hard work and love for this state and this country.

Please take a moment to become familiar with the various sections in this directory so that you can use it as a reference tool in serving the people of Montana. I also encourage you to recycle your old State Directory. This process helps all of Montana.

Working together we can meet both the challenges and opportunities presented to us. Thank you for allowing me to share them with you. I am proud to be associated with such dedicated and hard working people. Thank you for your exceptional and tireless effort. It is a blessing and privilege to continue with you, serving the people of Montana.

Sincerely,
JUDY MARTZ
Governor

STATE TELEPHONE NETWORK (STN) USAGE

The state's telecommunications facilities are provided for the conduct of state business. In addition to state business, the state's telecommunications facilities may be used by state employees and officials for local and long distance calls to latch-key children, teachers, doctors, day care centers, baby sitters, and family members to inform them of unexpected schedule changes and other essential personal business. The use of the state's telecommunications facilities for essential personal business must be kept to a minimum and not interfere with the conduct of state business. Essential personal long distance calls must be collect, charged to a personal third-party number, or charged to a personal credit card.

The state's telecommunications facilities include any state-owned, leased, contracted for, operated, or maintained telecommunications equipment, services, or facilities, including private branch exchanges, telephone key systems, teleconferencing systems, local and long distance telecommunications circuits, cellular telephones, data communications equipment, video capabilities, land mobile radio equipment, telephone credit cards, facsimile equipment, and voice mail.

All in-state and out-of-state calls made on the State Telecommunications Network (STN) are billed to the originating state telephone number.

* INFORMATION FOR MERIDIAN TELEPHONE USERS *

The following pages provide detailed dialing instructions and trouble reporting information for state telephone network users. Information designated with asterisks pertains only to those users on the State's Nortel Meridian Network, which is composed primarily of state offices in Helena as well as our Montana universities and colleges.

* TROUBLE REPORTS *

Report telephone service or equipment trouble conditions to 444-4455. There is generally no charge for repairs unless work is performed after normal business hours. Equipment repairs due to damage by the user may be billable. Report cellular telephone service or equipment trouble conditions to 800-942-2060.

If you are a university or college employee call your campus telecommunications office to report trouble.

---

* STATION ADD/MOVE/CHANGE REQUESTS *

Telephone Service Request (TSR) forms are required for installation, modification, removal, or other changes to your service. Requests must be submitted through your telephone coordinator. TSR's should be submitted to Voice Operations at least 15 days prior to the desired date of change. This will allow both technical and financial options to be reviewed and ensure accurate processing of the service request.

Telecommunications technicians are the only authorized personnel having permission to unplug, plug in, move, and take apart telephone equipment, modular cords, and jacks. Conduit or raceway is required for all new telephone jacks.

If you are a university or college employee call your campus telecommunications office to request service changes.

* CONFERENCE CALLING FROM A MERIDIAN TELEPHONE *

1) Single-line phones can be used to set up a three-party conference call: Call the first party, and when they are on the line, flash the hook switch; after the three beeps and dial tone, dial the second party; announce the conference; flash the hook switch to connect both to you. If you encounter a busy signal or no-answer when attempting to add a party to your call, dial 1187 to disconnect the unanswered line.

2) Multi-line sets can be used to set up a six-party conference; however, the conference is limited to three off-campus conferees in the following manner: Call the first party, and when they are on the line, press the Conference button; after the three quick beeps and dial tone, dial the second party; announce the conference; press the Conference key again to connect all three of you; repeat for the additional calls. If you encounter a busy signal or no-answer when attempting to add a party to your call, do not press the Conference key a second time. Instead, press the originating line key to return to your call.

3) For larger rooms and more people participating, borrow a teleconference unit from the Network Technology Services Bureau (call 2586) to be used in your office or a conference room on the capitol complex (you must use an active single-line jack). The instructions for use are included with the equipment. This system works well when a group of people in a room want to talk to one person off campus, such as during a job interview. A large speaker sits in the center of the table so that all people can participate in the conversation.

CONFERENCE CALLING USING THE CONFERENCE BRIDGE

A Meridian Integrated Conference Bridge (MICB) with 32 ports is located in the Mitchell Building. This service is managed by the State Government Operators and offers three types of conference calls: (1) MEET- ME - all participants call either a toll-free or local calling number at a pre-designated time and are automatically connected to the conference; or (3) OPERATOR ASSISTED -all persons involved are called by the operator, and conferenced together one at a time. Operator assisted calls are limited to 6 total participants. To schedule a conference call, dial **444-2586**.

Conference calls using the bridge should be scheduled with as much advance notice as possible. Changes to your teleconference may be made up to 60 minutes prior to the scheduled start time.

ITSD has added 800 Toll Free Calling capabilities to the conference bridge to support multi-party conference requirements. Meet–Me conferences using the new 800 services will be charged $0.11 per minute for each 800 line requested. Toll charges for Operator Assisted calls are based upon the state's current long distance calling rate of $0.14 per minute for all long distance connections.

SETUP CHARGE. Based on the number of participants per conference, the following setup charges will apply.

Number of Participants	MEET- ME	GROUP CALL-OUT	OPERATOR- ASSISTED
1 to 5	$10.00	$15.00	$20.00
6 to 10	$20.00	$25.00	$30.00
